

Milestones

This fifth Edition is Go Short's first milestone; a moment to celebrate and a good time to look back on the many milestones in short film history. Short film has always been the laboratory of innovation within film history. Together with various partners, we compiled the following three Milestone programs.

Milestones in Short Film History

Together with International Short Film Festival Leuven we present Milestones in Short Film History. These shorts take us from the early experiments in 1900 to the first online viral in 2000 in chronological order. These Milestones exemplify technical and artistic developments or are the films that introduced us to some of the most influential filmmakers of the years to come. Dirk van der Straaten (De Balie) will introduce all screenings.

Dutch Milestones

Dutch Milestones highlights the benchmarks of fiction shorts in Dutch film history from the very early years of Dutch cinema up to the recent revival of the short film form on behalf of Dutch broadcaster NTR. Rommy Albers and Maike Lasseur (EYE) will introduce all screenings.

Milestones 1: 1902 - 1927

Milestones 3: 1952 - 1967

Dutch Milestones

Milestones 2: 1929 - 1950

Milestones 4: 1967 - 2000

Stepping Stones

Stepping Stones

In our Milestones focus program we aspire to give a diverse overview of short film history both worldwide and nationally. Within the Dutch Milestones we asked several Dutch celebrities who have an affinity with short film to be an ambassador of the Dutch short film by choosing their favourite Dutch short. Anna Drijver, Waldemar Torenstra and Erwin Olaf amongst others participated and their personal favourites will be shown at different locations throughout the city. You may just stumble upon one as they are shown around town in public libraries, the window of an art gallery and at the local tourist office.
